EXAMPLE TO START A CONVERSATION:

It is not so difficult to start a conversation.
Try to figure out which approach fits you best or fits the circumstances.

♥ You are in a conversation, and somebody says that:
because of the inflation, it is not so easy to save money.

💬 *"That's interesting. You know, **I'm an ambassador of Compass Europe.** This is a foundation that focuses on financial discipleship. This is about following Jesus Christ and also what He teaches about money."*

⚙️ *"My parents taught me to save at an young age and they also warned me not to lend money. Later in my live I understood how important those lessons were and that this was based on Biblical principles: **lending money puts you in a vulnerable position** and saving money in good times will prevent you help you in more difficult times."*
